Are you looking for new tools to develop your entrepreneurial skills?

Interactive MOOC offers inspiring tools in Creative Problem Solving, Design Thinking and Human-Centered Design for successful ventures

The project

CDTMOOC promotes open education and innovative practices in the digital age through an interactive and gamified MOOC and digital guides describing innovative methodologies for their applicability in everyday practice.

Objectives

The project aims at disrupting the learning environment through innovative pedagogies. In fact, the project is about using different methodologies such as Creative Problem Solving, Design Thinking and Human-Centered Design to support modern entrepreneurship, to stimulate a change in practice, and after having proven itself during a period of intensive Pilot Testing.

The results
